

Workshop with JAYNE EDMONDS  
Fabric and Flowers

Zoom tutorial on Thursday 13 and Friday 14 May 2021

Mechanics

A block of insulation board

30 x 10 cms

If you don't have insulation board you can use polystyrene from packaging or a block of oasis sec (for dried flowers)

A block of normal green oasis will also work -though it is not so strong.

6 or 8 test tubes - glass or plastic

Fabric of your choice

(Sufficient to wrap your block)

Bullion wire

Or other fine wire or wool.

Sheer material , perhaps sisal sheeting or what you have to hand to harmonize with your fabric. Be adventurous.

Bullion wire. aluminium wire, copper mesh etc,

Corsage pins or decorative pins

Optional -A piece of wadding

A strong cane to make legs for your structure

A glue gun will be useful if you have one. Or any glue like bostik

Sharp scissors

PLANT MATERIAL

- A selection of small scale flowers. Choose light materials with fine stems to fit into tubes.
- Select colours to harmonise with your fabric.
- Few stems of cornus
- A few stems of fluffy foliage, like lavender or eucalyptus
- A few stems of taller fine materials like grasses or wheat

This list is only a guide, bring what you have to hand. Bring your **imagination** and get **creative**.
